OXFORD COUNTY TEACHERS' RALLY

A large delegation of teachers from the various towns in the County gathered at Norway, Wednesday, at the Educational Rally under the auspices of the Oxford County Teachers' Association. This was one of several meetings to be held in the State in the campaign for better schools.

The general session opened at 9.30 in the forenoon at the High School Gymnasium, where there was singing and business. Principal Albert C. Parker, president of the Association welcomed the teachers and spoke on a local theme, "The responsibilities of our association."

Group conferences followed, and the various rooms in the high school building were used. The topics were arranged to include every phase of the work. Among the problems considered were those pertaining to "Teachers of One and Two-Teacher Schools," profitable hand work and mental tests for "Teachers of Larger Elementary Schools;" hints and helpful suggestions for "Teachers of Secondary Schools" and topics emphasizing team work opened by Supt. W. E. Stuart of Norway for "Patrons and School Officers."

Two hundred and fifty persons enjoyed the splendid dinner served by the Norway Grange in their hall. This was arranged for a get-together with singing, after dinner speeches and an hour for good fellowship. Hugh Pendexter acted as toast master and all responses were right to the point.

The program for the general session in Norway Opera House during the afternoon was changed somewhat as the headliners failed to reach Norway until late. President A. C. Parker presided, Alton C. Wheeler, Esq., of South Paris delivered a strong address on the topic "The Citizen and the School." Frank McGouldrick of Bar Harbor brought gretings from the Maine Teachers' Association and H. A. Allen of Augusta, State director N. E. A. presented a brief statement of the service of the National Educational Association. A real community sing was conducted by J. Francis MacNichol of Augusta with Ruth E. Brown at the piano. Mr. MacNichol is a live wire and had the teachers singing lustily before his time limit expired. "Business and Education" was interestingly explained by John G. Thompson of Fitchburg, Mass.

The evening conference in the Opera House commenced at 8 o'clock. Mr. MacNichol led the community singing and enjoyed a large class at will. Mary Mealand Stone was accompanist.

Mrs. Stone, who is instructor in music and drawing in the schools of Norway introduced a class from the fifth grade who gave a minuet, accompanied by the Victrola.

Dr. Augustus O. Thomas, State superintendent of Public Schools, Augusta, defined and explained "Maine's Educational Program." The key note was "Better pay for the teachers and greater efficiency in the class room." Judge C. F. Whitman, Norway, spoke on "Oxford County's Part in the State Program" and for comparison of things past and present, confined his remarks to educational conditions, as they were some years ago. "The National Problem of Education" was a stirring address delivered by Hon. Hugh Magill, field secretary, National Educational Association.

Two pleasing vocal numbers were rendered by Mary Mealand Stone with Marion Haskell, violin, and Ruth Akers, piano.

MY GIRL

Tall and willowy, full of grace,
Smiling brown eyes, and a winsome face,
That's my girl.
Honest and upright, strong and true;
Square in each thing she attempts to do,
Respected by all, dearly loved by a few,
My girl.
What the future holds for her I do not know,
But of this I am sure, where'er she may go,
Her sense of right will carry her through
All dangers,—my girl.

Walback Tower, Portsmouth, N. H., was built in 1812 by Colonel Walback. Within is a rude pintle-stone on which a thirty-two pounder could be swung.

WALBACK TOWER is only one of many points of interest with which the tourist is favored in and near Portsmouth, N. H. There, as in almost every city, town and village in New England and New York, Socony service insures an ample supply of Socony products.

An absolutely clean, efficient gasoline can be made only by the most up-to-date refining and testing methods. Every step in the manufacture of Socony gasoline—from the crude oil pipe line to the tank of an authorized Socony dealer—is checked up by the highest standard of quality.

Buy gasoline as you do tires—on a basis of serviceability. Socony users receive clean-hitting, full-mileage power from every drop of gasoline that goes into their tanks. It vaporizes easily and assures a quick start every time—that is why they buy it, regularly.

Look for the red, white and blue Socony sign.

"Aunt" Dolly Tyler

"Aunt" Dolly Tyler passed into the higher life, Thursday evening, Sept. 23.

"Aunt Dolly" was born in Mason, Aug. 8, 1832, the daughter of the late Rev. John and Ruth Flint Payne. Mr. Payne was an old-time itinerant Methodist minister whose circuit extended 40 miles on the banks of the Androscoggin river from Gilead to Peru. His books included his Bible, Concordance, John Wesley's notes on New Testament and Compendium of Methodism. These books he carried in his saddle bags riding on horseback with saddle bags hanging on either side. His pay consisted of clothes food for horse and man, and when he gave up preaching, he had the clothes he wore and four pence in his pocket. He married Ruth Flint of Norway in 1828. "Dolly" was left motherless when four weeks old and Ruth Eames of Newry became her step-mother. It will be seen there was little opportunity for Dolly to obtain an education as there were but two terms of school each year, and she was only able to attend the summer term of eight weeks, but this only until she was 15 years of age. Up to this time she had never been away from home. Her first trip was to Norway to visit her grandfather.

As Aunt Dolly related the story of her early childhood, she showed that she had made the most of her opportunity, and she was noted among the acquaintances for accuracy of dates and knowledge. She was a great Bible student and had read the Bible from cover to cover many times.

On her 80th birthday, Aug. 8, 1912, the ladies of the Methodist church celebrated her birthday, and she remarked that this anniversary had never been observed before. The ladies served ice cream, tarts and fancy cakes, and one friend contributed a beautiful birthday cake and another an entertaining poem.

Aunt Dolly's father died when she was 33 years old, and in 1873 she married William Tyler of Mason. Her only son, Fritz Tyler, is a prosperous citizen of Bethel. Her last years have been passed in his home, and he and his family have been devoted in their ministrations to her. She was a conscientious Christian woman, always cheerful and happy and the oldest member of the Methodist church, having joined in 1854.

Mrs. Ella Carter and Catherine Seaton, who has been her guest, have gone to Northampton, Mass., to visit Grace Carter.

William Mackay has returned, after spending several weeks at his home at Prince Edward Island with his parents.

Mrs. Charles Grover of Norway is the guest of Mrs. Amelia Grover.

Mr. and Mrs. George Manley and Mr. and Mrs. Rice and son, Lieut. Austin Rice of Hyde Park, Mass., were recent guests of Mrs. A. Grover.

$100.00 REWARD

It has been said by those who either have no Maine Gems to sell, or else because of ignorance that there is no such thing as a Maine Gem. My show case is filled with semi-precious stones, mined and cut in Maine, and sold throughout the U. S. in the best stores, including Tiffany & Co. of New York. The above sum will be paid to any person who can prove there are no Maine Gems. I would be perfectly safe in making it a million dollars reward, did I possess that amount of money.

ANDOVER

Smith-Ream

One of the prettiest of early fall weddings at Andover was that Thursday afternoon, Sept. 23, of Mary Lucene Smith, younger daughter of Mr. and Mrs. Fred Smith, and Franklin Simon Ream, eldest son of Mrs. Jennie Livingstone of Johnstown, Pa.

The ceremony took place at 4 o'clock at the residence of the bride's parents in the presence of sixteen relatives and intimate friends. Preceding the ceremony Mrs. A. J. Cox, Jr., of Port Chester, N. Y., played "The Recessional" following which "Here Comes the Bride" was played as the bride descended the stairway preceded by her sister, Evelyn Smith of Elkhart, Indiana as maid of honor. They were met at the foot of the stairway by the groom and best man, Frank Smith of Mexico, and marched through an aisle of evergreens and white crepe paper to an altar where they were met by Rev. Charles Paul of Springfield, Mass., who performed the ceremony, which took place under an arch of evergreen and hyderangas with background of young firs. White asters were used throughout the room. The stairway was banked with evergreens and the dining room was decorated in pink and white crepe paper with vases of pink and white asters.

The bride wore a beautiful white gown of hand beaded crepe meteor with a bridal veil and pearl trimming and carried a shower boquet of white bride's roses and feverfew. Her maid wore a becoming dress of cerise and satin with trimmings of silver beads and carried a bouquet of roses to match.

Immediately following the ceremony, a buffet lunch was served by the mother of the bride, assisted by Iva Thurston, a close friend.

A reception was held from 8 to 10 p. m. to one hundred and fifty guests.

Dainty refreshments were served by the Campfire Girls. The bride received many beautiful gifts of silver, cut glass, linens, hand paintings and money.

Mr. Ream is a graduate of the Johnstown High School, 1911 class. Following his graduation, he went to work at his trade as carpenter before entering service in the World War, where he served as first lieutenant in the Medical Dept. 34th C. A. C. units in Fort Hamilton, N. Y. and Camp Eustis, Va.

Mrs. Ream was formerly a resident of this town and a student of Andover High School. She was very popular. For the past two years she has resided in Elkhart, Indiana. Mr. and Mrs. Ream left immediately after the reception for a few days' honeymoon at Pinewood Camps, Canton, after which they will return to Andover. They will be at home, 1136 So. Main street, Elkhart, Indiana after Oct. 15th.

Out of town guests at the reception were Mrs. Charles Richardson, Mr. and Mrs. O. M. Richardson, Ruth and Franklin Richardson, Canton; Herman Hanson, Mrs. Berton Hanson, Nathan Akers, Marjorie Akers, Rumford; Mr. and Mrs. O. P. Smith, Mexico, Mr. and Mrs. George Fox, Dorchester, Mass., Mr and Mrs. George M. Newhall, Germantown, Pa., George M. Graham, Brunswick, and Mrs. A. J. Cox and daughter, Port Chester, N. Y.

COMING HOME TO TOWN

I rode along the road today
And heard the driver speak and say,
"Get up here now, don't switch your tail,
You're slower now than any snail,
You will not trot, you only jog,
I'll swap you off for a yeller dog."
"Old rackabones I do believe
You are too lazy now to breath."
The old horse did not mind the joke,
The harness was tied up with rope,
As for me, I could but smile
At the driver, fishing all the while.
'Twas sultry too and hot that day,
'Tis time the horse was getting gray,
And he was driven against his will,
His mind was back there on the hill
By the shady tree and the boiling spring,
Where green grass grows and wild birds sing.
I said, "Kind sir, now tell me, pray,
Why don't you lay that horse away?
He is no good, he's broken down,
He is not worth, sir, half a crown,
Spavins stand out on his frame,
To drive him now it is a shame."
"He's old, he's blind, his race is run,
His life work here is nearly done,
His, was many a cruel blow,
He's paid his way long, long ago,
Make him a grave mid moss and leaves,
Where gentle winds sigh through the trees."
Today the horse is sleeping, dead,
The crows, they circle over head,
He lives no more to mope and dream
Of golden grain and pastures green,
He is deserving of a crown,
He hauled me safely back to town.

HIRAM

Mr.s Annie J. Scribner

Again the moan of suffering has yielded to the Victor's song and one of earth's purest spirits has passed to the Evergreen Shore. Mrs. Annie J. Scribner, wife of Bourdon C. Scribner of East Hiram passed away Sept. 23rd, at St. Barnabas Hospital, Portland, where she had been some three weeks for treatment for some internal displacement and chronic indigestion. She was born in Parsonsfield, Dec. 3, 1879, to Mr. and Mrs. Geo. E. Stanley. She was educated in the common schools and Gorham Normal School. She became an accomplished teacher and taught successfully in the village school at East Hiram. Here she met Mr. Scribner and they were married Feb. 28, 1912 and their union has ever been one of ideal happiness and content.

She was a model home-maker, and her home was a center of refinement and hospitality. She always heeded the calls of distress or humanity, and her hand and purse were open for their relief. She was an efficient member of the school committee several years, and has also rendered good service as chairman and trustee of the Soldiers' Memorial Library. She has been an active member of Hiram Congregational Church some ten years. Her last public effort was just four weeks before her funeral when she met her class of children in the Sabbath school and taught them for the last time.

In our life of more than four score years we have never met a person of more sweet and gentle disposition and winning manners or more loyal devotion to every friend and every duty, and we grieve that her warm hand clasp and pleasant smile will greet us here no more. With Christian fortitude she made a long, brave struggle for the life so dear to her, and others. Then, at last, she turned to her husband and arranged the details of her funeral as calmly as if planning a bridal tour.

At her funeral on Sunday afternoon, the large mansion was filled and Rev. Frederick Bannister of Colebrook, N. H., a former pastor here, spoke fitting words of consolation and gave an eloquent tribute to her pure, beautiful and conservated life. The choir sang "Jesus is calling Us." The public also paid their tribute; besides the silent eloquence of tears, the relatives, friends, schools, church, and the laborers of the village banked the casket with the largest offering of flowers we have ever seen at a funeral. Her three brothers, Frederick and Evrett of Kezar Falls, Percy of Farmington and her cousin, Frank Pendexter of Porter served as bearers.

Her Neighbors See Big Change

Nervous Indigestion Gone and She Feels Splendid Since Taking Tanlac

"My neighbors can't help seeing the remarkable change Tanlac has made in me, and I want everybody else looking for relief from troubles like I had to know about it also, for I firmly believe it is the very thing they need," declared Mrs. John J. Fisk, of 6 Brown Street, Westbrook, Me.

"Seven or eight years ago I began to be troubled with nervous indigestion which continued to grow worse as time passed until I got where I had rather do without my food than eat, it caused me such awful distress. I had terrible spells of gastric indigestion, which caused severe pains in the pit of my stomach, and I would become so nauseated I could scarcely retain a thing I ate.. I was so tired and worn out I could hardly do my housework, and when one of these spells would come on I would just have to lie down and rest.

"My folks kept after me to try Tanlac until I finally began taking the medicine and it has taken a few bottles to rid me completely of all my troubles. I just want to be eating all the time now, and everything agrees with me perfectly. I never have a sign of indigestion, nausea or nervousness, and I'm feeling just as fine as I ever did in my life. I'm more than grateful to Tanlac for what it has done for me, and I don't know a better way of showing my gratitude than by making this statement."

Tanlac is sold in Norway by A. L. Clark Drug Co., in West Paris by S. T. White, and by O. H. Haskell, Sweden, R. F. D. Harrison, and Kidder Bros., Peru.

DON'T BUY PORK—CAN IT

There's a profit in selling pigs and buying pork—but not for the farmer who follows this practice. The farmer's most profitable course is to kill, cure, and can enough pork for his own use and sell any additional amounts which he can produce and for which there is a demand. The practice of home curing pork has suffered through neglect, but it is now being revived, according to the Bureau of Animal Industry and the States Relations Service. These two bureaus of the United States Department of Agriculture are cooperating to encourage the general adoption of this wholesome usage among farmers. Home-cured pork, scrapple, pork pudding, sausage, canned pork, head cheese, and lard are among the foods which the farmer should get from his own cellar shelves and not from the city market. All transportation costs and commissions remain in his pockets.

A bulletin, "Killing Hogs and Curing Pork," now being revised by the Department of Agriculture, will soon be ready for issue. New methods and improvements have been given space in this discussion, and details of the processes for canning fresh pork have been added. Canning preserves pork with fresh pork flavors and lessens the toil and time incident to some of the older ways of curing the product. Besides being rapid and simple, the new process saves pounds of pork for all periods of the year which formerly had to be eaten soon after slaughter or be wasted.

MUST MOTHER GOOSE GO?

One of the mooted questions of the recent N. E. A. convention was that of ceasing to use the old familiar Mother Goose rhymes and jingles in the schoolroom. Many there were who expressed themselves in favor of banishing the familiar personages that have endeared themselves to childhood for generations.

The matter is worthy of consideration, as possessing two distinct aspects. It can not be disputed that in the apparently senseless lines and rhymes lurk important lessons. For inatance, the kindergarten child may often get its first lesson on value of money from the couplet about Simple Simon meeting the pieman and refused a pie because he had no penny. Another lesson is brought into child life by the introduction of the time element in the rhyme of "Dickory, Dickory Dock," in connection with which many youngsters turn in inquiry towards the clock and without effort learn, at the hands of a skillful teacher, the precious value of time. Then there is the element of sentiment. What mature person of today would willingly forget the days in the "little red schoolhouse," when he thought Little Boy Blue was a living, breathing being? What tired business man cannot profit by forgetting his cares for an hour in reliving with the kiddies the story of Jack and Jill? Who is there that does not enjoy and share in the laughter of the youngsters as they hear of Simon fishing in his mother's water pail.

Whether the tendency of the present utilitarian age is to thrust the hard responsibilities of life too early upon children, is debatable. Whether it were not better to let their tiny personalities unfold like budding flowers, by surrounding them with some of the "dream" element, that carries instruction in a pleasant manner is, at least, an open question.—Deseret News.

FOREST WASTE

The frequent reports of forest fires in this country make depressing reading. Our forest areas, the envy of other countries, are being depleted, not so much by the woodman's axe, as by negligence and lack of closer forest supervision.

The great majority of forest fires are due to carlessness. Every summer many fires are traced to camps. It is astonishing with what childish unconcern those travelling through woods and camping, will throw away lighted matches and show stupidity as to the care which should be exercised in stamping out camp fires. Carelessness such as this is criminal and should be treated as such. There is something pathetic and terrible in the spectacle of enormous areas of gaunt and blasted trees.

There never was a time when timber was so valuable the world over, and laws safeguarding it cannot be too stringent.

Owing to dry spells the danger of forest fires has been particularly great. The absence of rain makes the carelessness of the camper a still greater menace. Until such time as such offences are promptly punished, and this can only be accomplished by more strict forest supervision, there is little promise of better conditions prevailing.

While some men preach great principles, some men must look after little things that need attention.

The lessons of life are always harder than than those in high school.

The regular meeting of Harry Rust W. R. C. will be held, Thursday evening, Oct. 7.

A party of young folks enjoyed a pleasant time, Wednesday, at camp Alexander. The forenoon was devoted to bathing, and the afternoon the party enjoyed a marshmallow roast at Gibson grove. Those in the party were Elsie Smith, Doris Adams, Eleanor Smith, Doris Beck, Dorothy Newcomb, Verna Kimball, Henry Favor and Philip Greenleaf.

Bob Seavey is to close Beals Tavern, Nov. 1st, or about that time. He intends going to Florida for the winter and plans on making the trip in his high powered sedan and taking Toney Young along with him. Mrs. Seavey will go by train and boat. Mother has been asked to board the good dog "Pep" and she is half inclined to do so. Thus Norway will be without a hotel this winter, much to the inconvenience of Mell Sampson, Fred Sanborn, Elgin Greenleaf and others.

Tom Thibodeau is attending Brockton fair.

Mr. and Mrs Frank Kimball (nee Minnie Whittle) and Mrs. John Minot and son, Robert Whittle Minot, of Sumit, N. J., are the guests of George and Della Noyes on their way home from an auto trip through the country and the White Mountains.

Etta Noyes is having her living room papered. George Borneman is doing the work.

CARE OF FEET ON SCOUT HIKES

For the boy going on a hike, whether it is to last six hours or six days, there is nothing more important than keeping the feet in first class condition. The first thing to do is to have proper footwear. Get the shoe plenty wide, comfortably loose when wearing woolen socks. The shoe should be high enough to prevent dirt from entering the shoe, about 5 inches high will be found best. The shoe should be light, but desirable with a thin strong sole and soft oil-leather or canvas uppers.

Some prefer a heavier shoe, but it is well to remember that the work of lifting heavy shoes several thousand times a day—there are somewhat more than 2000 steps to the mile—is quite an item. A stiff sole is more slippery than a thin one and is liable to blister the feet because of this stiffness. For hard, rough work an oil-top leather shoe, well oiled and cared for, will be found best. Stiff soles are good only for rough rocky soil and mountain work.

The kind of socks or stockings is just as important as the shoes. The particular variety depends on just what kind of hiking you expect to do. It it is in the woods where the air is cool and where the feet may be damp part of the time, a heavy woolen stocking is best, as it will not only protect the feet from bruises, but will also keep the wearer from catching cold if his feet should get damp. If one is walking over hot roads, thin woolen stockings are better than cotton ones.

Never start on a long hike with dirty or sweaty feet. The feet, as the stockings, should be carefully washed before starting out every morning or a new pair of stockings should be worn. As an extra pair could hardly be carried for each day of a long hike, it may be well to carry one extra pair, changing and washing every day.

Don't be too positive. You may be quoted.

Mrs. Gould Speaks To Mothers

In a nice letter to Dr. J. F. True & Co., Mrs. Irving Gould of Chesterland, Ohio, says: "As my boy is sick and in much need of your Elixir, I ought not to be without it. I cannot speak too much praise. Dr. True's Elixir has done wonderful things for my children, and I will gladly answer any mother's letters in regard to the medicine and suffering children."

Mrs. Gould is one of thousands of mothers who look after the health of their children by giving them Dr. True's Elixir, the Family Laxative and Worm Expeller. If your children have these symptoms, give them Dr. True's Elixir.

Symptoms of Worms: Bad breath, swollen upper lip, sour stomach, occasional pains, pale face, eyes heavy and dull, twitching eyelids, itching of the nose and rectum, short dry cough, red points on the tongue, starting during sleep, slow fever. Mrs. Caroline A. Abbott

Mrs. Caroline A. Abbott passed away Friday afternoon, Sept. 24, at 4:30 at the home of her daughter, Mrs. Leslie N. Wood at Auburn at the age of 65 years. Mrs. Abbott had been in failing health for some time and death was due to cancer. She was the daughter of Emily (Harnden) and Peleg C. Guptill and was born in Chatham, N. H., August 23, 1855. Her early life was spent in Chatham, N. H., and Fryeburg and on May 21, 1879 she was united in marriage with Hosea E. Abbott, who passed away in August, 1919. Since her marriage she has resided in Lovell, Jackson, N. H., and came to Norway in 1883 where she resided except the past year when she has lived in Auburn.

Mrs. Abbott is survived by her two daughters, Emma, wife of Albion L. Buck of Norway, and Alice, wife of Leslie N. Wood of Auburn and four sisters, Mrs. Nellie M. Tebbetts of Kennebunk, Mrs. Alice M. Hill of Kennebunk, Mrs. John A. Woodman of Norway and Mattie E. Guptill of Fryeburg and one brother, Henry C. Guptill of San Francisco, Cal., and two nieces and one nephew of California.

The funeral which was private, was held at 2:30 Sunday at the home of her daughter in Auburn. The officiating clergyman was Rev. J. True Crosby. Burial took place in Norway Pine Grove Cemetery.

Slow Recovery From Accident

B. F. Wilder of New York, business manager of the Buttrick Publishing Co., while here on a fishing trip last June fell and broke the ligaments of his knee is making a slow recovery. He was confined to the bed 12 weeks and is now beginning to move about and is submitting to joint stretching stunts which are very painful.

He writes: "I am beginning to take trips about my room. At present they are confined to short runs between my bed and a chair at the window, but they are plenty long to me. The last one I made I couldn't get back under my own power: for some reason I couldn't stand up to get onto my crutches, and the Madame had to push my chair up to the bed. Then with the aid of God and the brass bedpost, I pulled myself into bed, and I was glad to get there."

His son Robert is taking a vacation at Sea Girt and is catching snappers with a light fly and having a great time. The "snappers" are young bluefish and weigh about three-fourths of a pound and run only in the swiftest tides.

His daughter, Dorothy, has commenced her third year at Columbia College where there are registered 19,000 students. She goes into the school of Journalism.

DeRue Bros. cancelled their engagement at Norway Opera House Monday evening, owing to illness in the company. The troup may appear on a later date.

Ben Wilder: "I see by the papers that Bob Seavey's candidate scffered a severe frost in the Maine election, but this is a bum year for Democrats. I'm sure Bob did all he could for his candidate, but the party can't win this time. Bob is betting on a dead card."

Read the want column every week. Many interesting announcements in it.

Mrs. Addie Thurston has just returned from a visit to her sister, Mrs. Harry Head and family at West Bethel and while there accompanied them on a long auto trip to Concord and Lancaster, through St. Johnsbury, Vt., to Willowby Lake and visited her nieces, Mrs. Norman Hall and family and Mrs. Robert Gilbert and family.

Mrs. Arthur Buck is making a good recovery from her recent operation.

Harry Spiller is working for the Central Maine Power Co. on lines in Norway and South Paris.

Arthur B. Cobb and Fred Barnes motored to Norton Mills, Thursday afternoon, returning Sunday night. One of the enjoyable features of the trip was a visit with Will "Harkey" Holt at Indian Rock Camps, Hanover. Fred expects to form a hunting club when the season opens for a session in that vicinity with "Harkey" Holt for guide.

The Ed Morse auction at N. W. Norway is today, Friday. Mrs. Morse's niece, Mrs. S. E. Sands, 52 Richardson Street, Woodfords, is there assisting her aunt. Mrs. Morse will go to Woodfords to live.

Leon M. Longley has taken his son, Forrest M. Longley, into partnership under the firm name L. M. Longley & Son. Forrest was graduated from Norway High School in June and entered the store as assistant and apprentice. After the fall rush he plans to persue a course at a commercial school during the winter.

Several departments are working in both shoe factories but no large orders have been received to break the quiet spell. Jobbers holding back for a drop in prices is one reason given for the hold-up.

Cord wood is growing scarce in the village and the price rises accordingly. Walter Cullinan, the wood dealer, is hustling to meet the demand and drives his truck long distances to secure small lots available.

Elgin Greenleaf Sugar Island, writes that trout are eager to take flies—especially the black nat. He will remain at his camps through October to accommodate hunters.

C. E. Judkins, known thirty odd years ago in town as "Bobcat" attended the fair. He is living at Saco and is selling the best kind of shoe polish made.

L. W. Weston of the Rockwood Store at Kineo Station was in town, Monday. He reports trout are coming to a fly in Moose River, having taken a half dozen one day last week. Mr. Weston visited relatives at Bolster's Mills and returned to Kineo, Wednesday.

Ed. Thomas' cobbler shop has been painted white by Sawyer & Scothorne.

Charles E. Frost is building a board walk for Judge W. F. Jones, from the residence to Pleasant street, a distance of 175 feet. Mr. Frost has just repaired the damage to Freeland Young's house caused by a heavy limb falling across the front during a summer gale.

Mr. and Mrs. Clyde Stimson of Conway, N. H., are visiting Mr. and Mrs. Harry O. Stimson. They came before fair week and have been having a busy time seeing the sights and visiting relatives.

The old photograph in the window at the Lee M. Smith Co., showing a yard packed with buggies and carriages, harks back to an age before Henry Ford and other wise men set the world burning gas. The picture was taken at Cummings boarding house during County fair probably thirty years ago when the late John H. Cummings was in his prime.

The meeting of Abigail Whitman Chapter D. A. R. will be held October 6 with Mrs. Mary Smith. The program will include roll call and current events, a paper, "Colonial Child Life and Education" by Margaret Baker, and a reading, "Colonial Household Industries," Mrs. Lena Andrews.

SIX MONTHS I COULD NOT WORK

Lydia E. Pinkham's Vegetable Compound Made Me Strong and Able to Work—I Recommend It To All My Friends.

Bayonne, N. J.—"I had pains in back and legs so that I could not stand caused by female trouble. I felt so tired all the time, had bad headaches, and for six months I could not work. I was treated by a physician and took other remedies but got no relief. A friend told me about Lydia E. Pinkham's Vegetable Compound and it has helped me very much. I am well and strong and now able to do my work. I cannot thank you enough and I recommend your medicine to my friends who are sick."—Mrs. SUSIE SACATANSKY, 25 East 17th St., Bayonne, N. J.

It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for over forty years, and today hold a record for such wonderful success as does Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

ANDOVER FAIR

The annual fair opened Wednesday under favorable circumstances. The weather was ideal and the exhibitors were in fine spirits when the sun rose over the mountains. Soon after cattle men began to arrive with their stock and the products of the field and garden were placed in the exhibition hall. Three races were pulled off during the day.

For the first day the attendance was considered large, 1,000 or more being on the grounds. Much interest as usual centers around the hall where there are a number of large exhibits. Collections of vegetables are being shown by Ralph Hewey, Herbert Campbell, S. S. Poor and others. Grains are entered by J. D. Martin. Among the fruit men is Leon Robinson. Outside the hall are several fruit and lunch vendors.

A very interesting exhibit is being made by the pupils of the East Andover school. There is also a fine lot of needlework entered.

Among the cattle men are Newell Godwin of Newry, who is exhibiting a herd of pure bred Herefords. Fred Milton has a number of yoke of steers. Arthur Philbrook, a herd of Herefords. Ray Thurston is showing pure bred Shorthorns

Swine are entered by Frank Porter, John Bailey, Ray Thurston.

Sheep, Leon Roberts, Mrs. Y. A. Thurston and Arthur Stevens.

Two accidents marred Wednesday's races, both of which were decided in straight heats. Rumford won the ball game from Andover, 5 to 1.

In the second heat of the 2:40 Thurston's sulky was smashed. In the third heat of this race, Frank Ward, well known in Androscoggin County, stepped in a hole. One ankle was broken and the gelding had to be shot. He was owned by Richard Ford of Mexico.

MAINE DAIRY FARM HELP

Maine dairy farmers have less hired help this year than the dairy farmers of any state in New England according to data secured by the Department of Statistics of the New England Milk Producers' Association. Their own labor and the labor and the labor of members of the family total nearly 93 per cent of all their dairy work, the hired help of all kinds amounting to only seven per cent. This is in strong contrast to Massachusetts where the farmers have 30 per cent. of their dairy work done by hired labor or in Vermont where the hired labor totals 27 per cent.

The figures secured show that the average Maine dairy farmer does 77 per cent of all his dairy work while in Vermont the dairy farmers do less than 50 per cent. Wives of Maine farmers do between four and five per cent of all the dairy work without pay, which is seven times what Massachusetts women are doing and considerably more than Vermont women. Connecticut women hold the record as dairy workers with nearly seven per cent, almost as much as all hired dairy labor in Maine combined.

Maine daughters also are far outclassed by the Connecticut girls in the amount of dairy work they are doing, but they are ahead of the girls in all the other New England states. They are doing about twice as much as Vermont girls, half as much again as New Hampshire girls and seven times as much as Massachusetts girls. Sons over 18 are doing 2.7 per cent of the dairy work as compared with 3.1 per cent in Vermont and 5.3 per cent in New Hampshire. But they are doing considerably more than Massachusetts or Connecticut young men.

These figures were secured by the New England Milk Producers' Association in an effort to get at the actual costs of producing milk on the average New England farm. The figures are significant in the large percentage of unpaid home labor which they show. If this labor were paid for or credited the actual cost of milk production would be considerably more than it is ordinarily figured. All such Labor should be counted in or the cost of producing milk will be governed by the extent to which a dairy farmer is willing to work his family without pay or without credit.

FARMER OF TO-DAY

If we compare life upon the farm now to what it was fifty years ago we shall find a wonderful increase in its convenience and comfort to the farmer.

Improvements in farming machinery have made the work somewhat less strenuous, and improved methods of farming enable better results to be produced with less effort.

But the greatest amelioration in conditions comes from the rural free delery, the telephone and the automobile.

These have put an end to the farmer's isolation. He is now a member of the community, and a prominent one. Whatever the weather conditions, news of the world comes to him regularly, and he is in immediate touch with neighbors and friends.
